NEW: AQUATECH MEXICO 2016

JOIN US AND PROFIT FROM GREAT BUSINESS OPPORTUNITIES IN THE MEXICAN WATER MARKET!

AQUATECH MEXICO: GUARANTEED AT LEAST 2,500 POTENTIAL BUSINESS PARTNERS!

RAI Amsterdam and EJ Krause proudly announce the launch of Aquatech Mexico 2016! The Federal Mexican government is dedicated to improving water and wastewater systems and treatment via foreign private sector participation.

Mexico is the second largest economy in Latin America and the 14th largest economy in the world. Water is a strategic issue for the country's development due to the fact that there is a low availability of water and 75% of the population lives in the cities (expected to be 80% by 2030). The Water Agenda 2015-2030 of the Mexican Government is an ambitious program that reaches every part of water technology and resource management.

In addition, the interest and investment opportunities in the industrial sector (Food & Beverage, Energy, Oil & Gas, Mining etc.) are also growing.

CO-LOCATION WITH THE GREEN EXPO!

Aquatech Mexico will co-locate with The GREEN Expo, the largest annual Mexican Exhibition for the Environmental and Renewable Energy sectors organized by E.J. Krause for 23 years. The last edition of The GREEN Expo brought 10,481 professionals from 48 Industries. This annual exhibition also attracts 28.66% of industrial visitors with an interest in water technology products and solutions!

Visitors of The GREEN Expo with an interest in water technology:

WATER	%*
A. Water Savings	54.75%
B. Water Use and Re-Use Solutions	53.49%
C. Solar Water Heating	43.58%
D. Water Purification Equipment	42.88%
E. Water Distribution	33.52%
F. Pumps and Valves	30.96%
G. Inspection, Cleaning and Maintenance Equipment	25.93%
H. Installation and Storage Systems	25.09%
I. Boilers and Water Coolers	24.02%
J. Network and Drainage Construction	21.18%

*As this is a question with multiple answers, the percentages total more than 100%
